

Bruce Jolly has been named General Manager of the CCF

Bruce jolly expands his role within CCF and assumes Operational Management

August 19th, 2010

It is with great pleasure that I announce today that Bruce Jolly has been named general manager of the CCF. In the past two years Bruce has been overseeing all fiscal responsibilities for the CCF and utilized his vast industry experience in liaison activities with other industry bodies.

In addition to his current role as chief financial officer (CFO) and treasurer, he will now oversee all operational functions of the CCF including testing and certification, finance and marketing, taking on a more strategic role and participating in setting the direction, vision and goals of the organization.

Placing the day-to-day management of the organization in the hands of an independent industry representative who can provide dedicated leadership is critical to ensuring the continued success of the CDMA Certification Forum. The CCF is fortunate to have someone of Bruce's experience and capability to take on this role.

I invite you to join me in congratulating Bruce for his new responsibility within the organization.

Sincerely,
Thomas Erickson
President and CEO
CDMA Certification Forum
